

SAFETY DATA SHEET MULTIGREEN FINE 19-0-30

SECTION 1: Identification of	the substance/mixture and of the company/undertaking	
1.1. Product identifier		
Product name	MULTIGREEN FINE 19-0-30	
Product number	CRF007/25	
1.2. Relevant identified uses	of the substance or mixture and uses advised against	
Identified uses	Fertiliser for use on managed amenity turf	
1.3. Details of the supplier of the safety data sheet		
Supplier	Headland Amenity Ltd 1 Burr Elm Court Main Street Caldecote Cambridge Cambridgeshire CB23 7NU Tel. +44 (0)1223 491090 sds.enquiries@headlandamenity.com	
Contact person	Wendy Johnson	
1.4. Emergency telephone number		
Emergency telephone	+44 (0)1223 491090 (9.00 - 5.00 GMT Mon-Fri)	
SECTION 2: Hazards identification		
2.1. Classification of the subs	stance or mixture	
Classification (EC 1272/2008	<u>-</u>	
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
2.2. Label elements		
Hazard statements	NC Not Classified	
2.3. Other hazards		
This product does not contain any substances classified as PBT or vPvB.		

SECTION 3: Composition/information on ingredients

3.2. Mixtures

POTASSIUM NITRATE		0-70%
CAS number: 7757-79-1	EC number: 231-818-8	REACH registration number: 01- 2119488224-35-XXXX
Classification Ox. Sol. 3 - H272	Classification (67/548/EEC or 1999/45/EC) O; R8. E; R9	
Composition comments	es and Hazard Statements are Displayed in Section 16. The data shown are in accordance with the latest EC Directives.	
-		
SECTION 4: First aid measure		
4.1. Description of first aid means and me		linse nose and mouth with water. Get medical
Ingestion	Never give anything by mouth to an unconscious person. Rinse mouth thoroughly with water. Do not induce vomiting. Get medical attention if any discomfort continues.	
Skin contact		tamination. Take off immediately all contaminated n thoroughly with soap and water. Get medical
Eye contact	Remove any contact lenses and open eyelic minutes. Get medical attention if any discom	ds wide apart. Continue to rinse for at least 15 nfort continues.
4.2. Most important symptoms	and effects, both acute and delayed	
General information	Treat symptomatically.	
Inhalation	May cause respiratory system irritation.	
Ingestion	May cause discomfort if swallowed.	
Skin contact	Prolonged skin contact may cause redness and irritation.	
Eye contact	May cause temporary eye irritation.	
4.3. Indication of any immediat	e medical attention and special treatment nee	eded
Notes for the doctor	No specific recommendations. If in doubt, ge	et medical attention promptly.
SECTION 5: Firefighting meas	ures	
5.1. Extinguishing media		
Suitable extinguishing media	The product is not flammable. Use fire-extin	guishing media suitable for the surrounding fire.
Unsuitable extinguishing media	None known.	
5.2. Special hazards arising fro	om the substance or mixture	
Hazardous combustion products	Toxic and corrosive gases or vapours. Nitrous gases (NOx). Oxides of potassium.	
5.3. Advice for firefighters		
Protective actions during firefighting		Cool containers exposed to heat with water spray be done without risk. Wear positive-pressure self appropriate protective clothing.
SECTION 6: Accidental releas		

	to the second and an end and an end and a second second second	
6.1. Personal precautions, pro	tective equipment and emergency procedures	
Personal precautions	Provide adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet.	
6.2. Environmental precaution	S	
Environmental precautions	Avoid the spillage or runoff entering drains, sewers or watercourses.	
6.3. Methods and material for	containment and cleaning up	
Methods for cleaning up	Stop leak if safe to do so. Scoop/sweep/shovel spill into closing containers. Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or watercourses.	
6.4. Reference to other section	ns	
Reference to other sections	Collect and dispose of spillage as indicated in Section 13.	
SECTION 7: Handling and sto	rage	
7.1. Precautions for safe hand	ling	
Usage precautions	Provide adequate ventilation. Open container with care to avoid generating dust. Avoid spilling. Avoid contact with skin and eyes. Wash hands thoroughly after handling.	
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product.	
7.2. Conditions for safe storage, including any incompatibilities		
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep away from heat. Keep away from combustible materials. Oxidising materials. Alkalis.	
7.3. Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure Contro	Is/personal protection	
8.1. Control parameters		
	POTASSIUM NITRATE (CAS: 7757-79-1)	
DNEL	General population - Oral; : 12.5 mg/kg/day Workers - Dermal; : 20.8 mg/kg/day General population - Dermal; : 12.5 mg/kg/day Workers - Inhalation; : 36.7 mg/m ³ General population - Inhalation; : 10.9 mg/m ³	
PNEC	- Fresh water; Long term 0.45 mg/l - Marine water; Long term 0.045 mg/l - Water; Short term 4.5 mg/l - STP; Long term 18 mg/l	
8.2. Exposure controls		
Protective equipment		
Appropriate engineering	Provide adequate ventilation.	

Appropriate engineering controls

Provide adequate ventilation.

Eye/face protection	Wear chemical splash goggles. Provide eyewash station.	
Hand protection	Wear protective gloves made of the following material: Butyl rubber. Neoprene. Rubber (natural, latex).	
Other skin and body protection	Wear appropriate clothing to prevent any possibility of skin contact.	
Hygiene measures	Do not smoke in work area. Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. Do not eat, drink or smoke when using this product.	
Respiratory protection	No specific recommendations. Respiratory protection may be required if excessive airborne contamination occurs.	

SECTION 9: Physical and Chemical Properties

9.1. Information on basic phys	ical and chemical properties
Appearance	Granules.
Colour	White.
Odour	Odourless.
Odour threshold	No information available.
рН	No information available.
Melting point	>210°C
Initial boiling point and range	No information available.
Flash point	Mixture not classed as flammable
Evaporation rate	No information available.
Evaporation factor	No information available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	Not applicable.
Vapour pressure	No information available.
Vapour density	No information available.
Relative density	900-1200kg/m3
Bulk density	No information available.
Solubility(ies)	No information available.
Partition coefficient	No information available.
Auto-ignition temperature	No information available.
Decomposition Temperature	No information available.
Viscosity	No information available.
Explosive properties	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	

10.4. Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Flammable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition products Hazardous decomposition products Hazardous decomposition products Nitrous gases (NOx). Oxides of potassium.	Other information	No information required.	
Reactivity There are no known reactivity hazards associated with this product. Stable under normal conditions. 10.2. Chemical stability Stable at normal ambient temperatures. Stable under normal conditions. 10.3. Possibility of hazardous reactions No potentially hazardous reactions known. Possibility of hazardous No potentially hazardous reactions known. 10.4. Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Materials to avoid Materials to avoid Flammable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition products Hazardous decomposition products Hazardous decomposition products Nitrous gases (NOX). Oxides of potassium. products No information available. SECTION 11: Toxicological information No regardous decomfort. Vomiting. Nausea. Diarrhoea. Ingestion May cause irritation. Gastrointestinal discomfort. Vomiting. Nausea. Diarrhoea. Ingestion May cause eye irritation. SECTION 12: Ecological Information evailable. No regarded as dangerous for the environment. SECTION 12: Ecological Maximum evaluation evailable. No regarded as dangerous for the environment. SECTION 12: Ecological Information av	SECTION 10: Stability and rea	activity	
conditions. 10.2. Chemical stability Stability Stable at normal ambient temperatures. Stable under normal conditions. 10.3. Possibility of hazardous reactions No potentially hazardous reactions known. Possibility of hazardous No potentially hazardous reactions known. Teaching No potentially hazardous reactions known. 10.4. Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Flammable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition products Hazardous decomposition products SECTION 11: Toxicological information available. No information available. Inhalation May cause initiation. Gastrointestinal discomfort. Vomiting. Nausea. Diarrhoea. Ingestion May cause skin irritation. Skin contact May cause skin irritation. Section 11: Ecological Information available. No information available. Stable at dangerous for the environment. 12.1. Toxicity 12.1. Toxicity No information available. Section 12: Ecological Information available. No information available. 12.1. Toxicity No information available.	10.1. Reactivity		
Stability Stable at normal ambient temperatures. Stable under normal conditions. 10.3. Possibility of hazardous reactions No potentially hazardous reactions known. Possibility of hazardous No potentially hazardous reactions known. reactions No potentially hazardous reactions known. 10.4. Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Materials to avoid Materials to avoid Flammable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition Nitrous gases (NOx). Oxides of potassium. products No information available. SECTION 11: Toxicological information Information on toxicological effects Toxicological effects No information available. Inhelation May cause discomfort if swallowed. Large quantities - bloody bowel movement. Skin contact May cause skin irritation. Ectoxicity Not regarded as dangerous for the environment. 12.1. Toxicity Iz.1. Provisity 12.2. Persistence and degradability No information available. 12.3. Bicaccumulative potential No information available. 12.4. Mobility in soil No information available.	Reactivity		
10.3. Possibility of hazardous reactions Possibility of hazardous No potentially hazardous reactions known. reactions No potentially hazardous reactions known. 10.4. Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Temmable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition Products Hazardous decomposition products Nitrous gases (NOX). Oxides of potassium. products SECTION 11: Toxicological information 11.1. Information on toxicological effects No information exailable. Toxicological effects No information. Gastrointestinal discomfort. Vomiting. Nausea. Diarrhoea. Ingestion May cause discomfort if swallowed. Large quantities - bloody bowel movement. Stin contact May cause eye irritation. Ecotoxicity Not regarded as dangerous for the environment. 12.1. Toxicity Stardous degradability 12.2. Persistence and degradability No information available. 12.3. Bioaccumulative potential No information available. 12.4. Mobility in soil No information available.	10.2. Chemical stability		
Possibility of hazardous reactions No potentially hazardous reactions known. 10.4. Conditions to avoid Conditions to avoid High temperature. Unstable when exposed to moisture. 10.5. Incompatible materials Materials to avoid Materials to avoid Flammable/combustible materials. Reducing agents. Powdered metal. Strong acids. Organic material. 10.6. Hazardous decomposition products Hazardous decomposition products Hazardous decomposition no toxicological effects Toxicological effects No information 11.1. Information on toxicological effects Toxicological effects No ause irritation. Gastrointestinal discomfort. Vomiting. Nausea. Diarrhoea. Ingestion May cause discomfort if swallowed. Large quantities - bloody bowel movement. Skin contact May cause eye irritation. Ecotoxicity Not regarded as dangerous for the environment. 12.1. Toxidity 12.2. Persistence and degradability Persistence and degradability No information available. 12.3. Bioaccumulative potential No information available. 12.4. Mobility in soil No information available.	Stability	Stable at normal ambient temperatures. Stable under normal conditions.

Mobility No information available.	12.4. Mobility in soil		
	Mobility	No information available.	
12.5. Results of PBT and vPvB assessment			

Results of PBT and vPvB This product does not contain any substances classified as PBT or vPvB. assessment

12.6. Other adverse effects

Other adverse effects Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the
	local Waste Disposal Authority.

SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

08/09/2015

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information		

Revision comments

Product classified and SDS updated to meet CLP European Regulation No 1272/2008.

Revision date

Revision	4
Supersedes date	11/02/2011
Risk phrases in full	R8 Contact with combustible material may cause fire. R9 Explosive when mixed with combustible material.
Hazard statements in full	H272 May intensify fire; oxidiser.
